Communication

Bexley have adapted their 2-year review process. This is the review that you do with your health visitor between the age of 24-30 months. Due to this change there will be some changes to how we do 2-year review at the nursery. Our new process has been emailed to all parents. If you have any questions, please feel free to contact us.

Employee of the Month

We would like to say a big Congratulations and a massive Thank you to Pam, who was our employee of the Month! Pam always goes above and beyond and is always willing to help others.

Breakfast

Just a quick reminder that breakfast is served until 8.30am. If you wish for your child to have breakfast arrive at nursery with enough time for your child to have breakfast.

The childrens adventures

The children have been taking part in various outings. First, we went to Pizza express where the children got a chance to explore lots of different ingredients before going on to making their very own pizza's. We also went to the fruit market where we looked at many different fruits and also bought some strawberries to try- They were delicious!

2023 graduation

Sad to say goodbye. This month we celebrated our 2023 graduation for our preschool children who will be taking the next BIG step and transitioning to big school we wish you all the best of luck you will be missed.

Ideas for home learning

There are lots of different activities that can be done at home to link to our theme of the month. These can either be outings or creative activities for indoors. Please see pictures below to support:

Exclusion Periods

Hand, Foot and Mouth	All blisters must have dried out before returning to nursery, usually after 5 days.
Tonsillitis	If prescribed antibiotics your child will be excluded for the first 48 hours of taking them.
Sickness and Diarrhoea	All children are excluded from nursery for at least 48 hours from their last bout of sickness or diarrhoea.
Scarlet fever	Excluded from nursery for the first 48 hours of antibiotics.
Eczema	Creams must be new and unsealed- Parents consent is required on medication form
Measles	Excluded for 4 days from the onset of the rash.
Ringworm	Excluded for 48 hours after applying first course of cream.
Chicken pox	All spots must be fully scabbed over before returning to nursery. This is usually around 5-7 days from when the last spot appears.
Head lice	Excluded from nursery until cleared form head lice.
Infant Suspension Calpol/Nurofen	<p>If a child is presenting a fever, we will try to bring it down naturally however if medication is required this can only be administered once during the child's session at nursery. In this case, if a child has longer than 4 hours left of their session we will ask for the parents to arrange collection for the child. This is due to only being able to administer the medication once; if the child has a fever after the medication has worn off we would be unable to give them anymore.</p> <p>If a child has arrived at nursery after having Infant suspension the same day, they will be unable to attend that day's session. This is for the same principles as the previous policy. We apologise for any inconvenience caused.</p>
Conjunctivitis	Children will be excluded till they are fully clear of infection and free of any discharge. Any eye prescriptions may only be administered after 48 hours.
Prescribed Medication	Children must be on medication for a minimum of 48 hours before returning to nursery. Medication can only be administered after the 48-hour exclusion even if your child has previously had the medication.
